Dear Ted;

Amazing! Your WOW! and NANOPRIME brought back the color of my sun bleached Old Town canoe!

My maroon colored, fiberglass canoe had been lying in my back yard exposed to the elements for 5 years, and the bottom had turned a chalky white. While it took 3 coats of NANOPRIME to do it, the color came back like new. A finish coat of Nanotech WOW! completed the job, and now it's like I have a new canoe! Good for you.

Your great products are now available in our retail showroom @ our stove & energy store, and I'm happy to tell everyone what a great job it does. Thank you.

Yours truly,

David Burton
