Dear Ted;

Your NANOTECH **WOW!** Polish works very well protecting the dashboard and instruments on my power boat, as well as keeping the chrome clean and shiny. Clean-up after a charter outing is much easier, and faster.

Next season, I'm going to use your product on the bottom of the boat, having seen the picture proof of its preventing barnacle growth!

I am recommending your NANOTECH **WOW!** Polish to all my customers.

Sincerely,

A handwritten signature in cursive script that reads "Sandy Sandquist".
