Dear Mr. Theis,

I've tried your WOW! on my granite counter top, my mirrors and the tile and glass door of our shower. I don't know what you say WOW! stands for, But I think it's the Wonder of Wonders! It went on so easily and finished so smoothly that nothing sticks to my counters, and soap residue and water marks whisk right off the tile and glass.

I used to spend an hour cleaning the bath, and now it takes just a few minutes, and my kitchen counters now come clean with just water on the micro fiber towel I got with the WOW!

Since everything cleans so quickly once WOW! is on it, my cabinets are next.

Thank you so much.

Sincerely,
